### EDUCATION

<b>Paris I Panthéon Sorbonne University</b>	Paris, France
· PhD in Economics	Since 2019
· MSc in Development Economics	2018-2019
· MPS in Social Development	2011-2012
· MA in Applied Economics	2010-2011
<b>Paris Sud 11 University</b>	Paris, France
· BA in Economics	2007-2010

### RESEARCH EXPERIENCE

<b>Grupo de Análisis para el Desarrollo - GRADE</b> <i>Visiting Scholar</i>	Lima, Peru 2022
--	--------------------

<b>Presidency of the Council of Ministers</b> <i>Consultant</i>	Lima, Peru 2019
--	--------------------

Consultant for the design of a study aiming at assessing the impact of the public program "Improving the quality of services to citizens" on the users' well-being.

- Qualitative fieldwork in Lima and Arequipa.
- Methodological design of impact evaluation using econometric techniques.
- Questionnaire conception and survey design.

<b>Ministry of Education</b> <i>Economist</i>	Lima, Peru 2015-2018
--	-------------------------

Econometric studies of public sector teachers' working conditions and subjective well-being.

- In charge of the research team at the Department for the Promotion of Teacher's Well-being and Recognition (2017/2018).
- Participated in the design of the National Survey of Teachers (ENDO), drafted the questionnaire, and supervised the data collection in the schools.
- Analyzed and exploited complex survey data with Stata and SPSS.
- Used impact evaluation techniques in order to assess the effectiveness of several interventions aiming to increase teacher's job satisfaction and working conditions.
- Drew up research papers for the design of evidence-based public policies.

<b>Institute of Peruvian Studies</b> <i>Junior researcher</i>	Lima, Peru 2014-2015
--	-------------------------

Labor market studies about informality and subjective well-being.

- Participated in the design and supervision of data collection of a complex survey in Metropolitan Lima.
- Applied non-parametric wage gap decomposition techniques to explain the differences between formal and informal workers' wages.
- Applied a generalized ordered logit model to identify factors related to the subjective well-being of workers living in Lima.

<b>University of the Pacific</b> <i>Junior researcher</i>	Lima, Peru 2014
--	--------------------

Impact evaluation of social programs.

- Participated in the impact evaluation of social programs implemented in northern Peru.
- Applied Propensity Score Matching and Difference in Differences techniques.

**National Institute of Statistics** Lima, Peru  
**Junior researcher** 2013-2014

Labor market studies on the informal economy.

- Participated in the elaboration of the first official book dealing with the informal economy in Peru.
- Wrote the first draft of the book.
- Measured informal employment and informal production with household surveys and the national accounts.

**Institute of Research for Development UMR 225** Paris, France; and Port-au-Prince,  
**DIAL** Haiti  
**Research Intern** 2012

Quantitative study on inequality of opportunity in Peru, and survey data collection in Haiti.

- Developed a study focusing on the inequality of opportunity in the labor market and living conditions in Peru.
- Applied the Bourguignon, Ferreira & Menendez technique to distinguish between ‘circumstance’ and ‘effort’ variables according to John Roemer’s work.
- Proposed two methodological innovations to measure inequality of opportunities: the ‘Non-income Opportunity Growth Incidence Curve’ and the ‘Type-Convergence Matrix’.

Participated in the impact evaluation of the 2010 earthquake on households’ standards of living in Haiti (EISHA project).

- Supervised the data collection in Port-au-Prince.
- Coordinated the fieldwork with the project partners: the World Bank and the Haitian Institute of Statistics.

### TEACHING EXPERIENCE

**Paris I Panthéon Sorbonne University, Department of Economics** Paris, France  
**TA** Since 2020

- In charge of the courses “Descriptive Statistics” and “Microeconomics 2” for undergraduate students.

**Pontifical Catholic University of Peru, Department of Economics** Lima, Peru  
**Lecturer** 2014-2017

- In charge of the “Thesis Seminar” course for last year undergraduate students.
- Guide ~2 students per semester to shape, refine, and direct their written dissertation.
